The city of Castellón and its dynamic Diputation has been distinguished by its support to the sport, as an activity that generates values such as effort, self-discipline, respect and its integrating social capacity, which in sport fishing could add specific values such as Respect for aquatic ecosystems and the natural environment, as well as their great social transversality. This tradition of sports promotion characterizes Castellón. Welcome all to the province of Castellón, a warm and diverse land with high mountains that look to the sea. As a marine province, it is a pride for us to host the 1st Master World Championship Shore Angling

Fishing occupies a prominent place in the history of Valencian society and, especially, in the province of Castellón. An art and a trade that has been the cornerstone of the progress of many of our peoples and the future of our ancestors. The County Council of Castellón and the signs of identity of our territory have always gone hand in hand, because we are aware that our reason for being is to help our people and, therefore, to defend the traditions.

Therefore, this office, now turned into a complex sports practice, could not have another answer on the part of the provincial institution than our most sincere support and collaboration. Thanks to the organizers for thinking about Castellón for this international event, and thanks to the participants for making us enjoy this unique sport.
