## Welcoming Message

We are very pleased to welcome in our city the 2<sup>nd</sup> World Shore Angling Championship for Masters. Albufeira is a city facing the sea and this is, without doubt, our main attraction. We have about 30 kilometres of coast, with all the beaches certified with “Blue Flag”, sine of environmental excellence. We are, for all those reasons, one of the main beach destinations of our country.

But Albufeira is way more than that. Every day we have more activities and attraction factors, which last way longer than the bathing season and make Albufeira a destination to have in account all year long.

Sport in general and Sportive fishing particularly give their contribution for the valorisation of our destiny. It’s good to know that we are searched to receive the various sportive competitions which make a great impact in the socioeconomic development of Albufeira.

This Championship is another happy example of this reality and, as such, it couldn’t be carried out without our support. This being a World Championship that with have a great sportive component, but it’s also an unique experience, for the social component and to represent the opportunity to join so many and good competitors.

To all the involved, I wish a great stay, that everything runs in the best way and that in the end you feel a little bit closer to Albufeira.
